INTERNSHIP

Frontend Development Intern **Oct 2026 – Jan 2027**

Unified Mentor Pvt. Ltd. — Gurugram, Haryana

- Selected for a frontend development internship focused on responsive web interfaces using React.js, JavaScript, and modern frontend tools.
- Responsibilities include developing reusable UI components, integrating REST APIs, fixing bugs, and collaborating with Git/GitHub.

PROJECTS

SkyCast — Real-Time Weather Dashboard Live Demo

React.js, JavaScript, Tailwind CSS, Axios, REST API

- Built a responsive weather dashboard in React.js with city search and 5-day forecasts, pulling live data from a third-party REST API.
- Added 2 location modes (manual search + browser Geolocation), dark mode, recent-search history, loading states, and error handling, using reusable components styled with Tailwind CSS.

PDF Editor — Browser-Based PDF Utility Live Demo

React.js, Vite, Tailwind CSS, React Router, PDF-Lib, PDF.js, jsPDF, JSZip

- Built a browser-based PDF toolkit supporting 9 operations — image-to-PDF, PDF-to-image, merge, split, rotate, delete pages, add text, add signature, and compression.
- Processed 100% of files client-side (no server) using PDF-Lib, PDF.js, and File/Blob APIs, with drag-and-drop uploads, reusable components, validation, and error handling.

Employee Management System Live Demo

HTML5, CSS3, JavaScript, LocalStorage, SessionStorage

- Built an employee management app with login authentication and full CRUD — 4 operations: create, read, update, and delete.
- Used 2 browser storage mechanisms — LocalStorage for persistent records and SessionStorage to manage session state.
